

DATTATRAYA RAUT

Technical Manager – Quality Engineering & EV Integration

Pune, India | +91 9021508355 | dattaraut929@gmail.com | [linkedin.com/in/dattaraut929](https://www.linkedin.com/in/dattaraut929)

PROFESSIONAL SUMMARY

Dynamic Technical Manager with 9.4+ years of specialised experience in Quality Engineering, E/E Integration, and HIL Validation. Currently leading a team of 7 — with a domain-specialist Indian Automotive EV Expert joining June 2026 — at KPIT Technologies, overseeing EV Labcar Development and Process Quality for commercial vehicles. Expert in establishing Quality Assurance programmes, conducting factory assessments, and optimising testing methodologies (TDD/BDD). Proven track record in managing Supplier Quality, executing End-to-End (E2E) system testing, and ensuring ISO 26262 compliance for global automotive OEMs. Recognised as an industry thought leader, delivering guest lectures to engineering students on EV technology and automotive quality practices.

CORE TECHNICAL SKILLS

Quality Management: Receipt Quality, Process Quality, Launch Quality, QMS Audits

Testing & Automation: Functional Testing (Manual/Automation), API Testing, TDD, BDD, Cross-Browser Testing

Standards: ISO 26262 (ASIL A–D), ASPICE, Testing Pyramid, SOP Development

HIL & Tools: Vector VT, ETAS, dSPACE, CANoe, LabVIEW, JIRA, Jenkins (CI/CD)

Protocols: CAN, CAN-FD, Automotive Ethernet, UDS, J1939

PROFESSIONAL EXPERIENCE

KPIT Technologies | Technical Manager | Feb 2026 – Present

- **Leadership & Quality Strategy:** Directing a team of 7 engineers (expanding with an Indian Automotive EV Expert joining June 2026) to deliver Launch Quality for EV Labcar and E/E Integration projects for commercial vehicles.
- **Team Building:** Actively recruited and onboarded a specialist Indian Automotive EV Expert to strengthen domain capability and accelerate EV programme delivery.
- **Process Excellence:** Developing and implementing SOPs for assembly, testing, and calibration of integrated Labcar instruments, ensuring 100% target achievement.
- **Supplier QA:** Leading comprehensive quality assurance programmes for vendors, including factory assessments and capability verification to ensure consistent component quality.
- **E2E Test Management:** Acting as Lead Test Analyst for system-level E2E projects, collaborating with global stakeholders to run testing workshops and define requirements.
- **Continuous Improvement:** Driving the evolution of testing standards and methodologies (TDD/BDD) to increase product quality and reduce technical debt.

FEV India Pvt. Ltd. | Senior Engineer | June 2022 – Jan 2026

- **Technical Test Management (Onsite: Saudi Arabia):** Lead Engineer for EV platforms; managed the testing of 138 ECUs. Developed automated quality controls reducing regression cycles by 50%.
- **Functional Safety Quality (Onsite: Vietnam):** Performed ISO 26262-compliant validation using testing pyramid fundamentals to debug software and verify safety mechanisms.
- **Stakeholder Collaboration:** Actively participated in cross-functional global teams to optimise product quality and cost-effectiveness.

Sedemac Mechatronics Pvt. Ltd. | SWQA Technician | Nov 2016 – May 2022

- **Quality Control:** Engineered HIL functional rigs; performed Receipt Quality inspections for sensor simulators and automation hardware.

- Root Cause Analysis (RCA): Conducted technical design analysis to resolve malfunctions in off-highway ECUs using functional and non-functional testing aspects.
- Manual & Functional Testing: Extensive experience in manual testing of web and desktop applications.

THOUGHT LEADERSHIP & ACADEMIC ENGAGEMENT

- Guest Lecturer – EV Technology & Automotive Quality: Delivered a guest lecture to engineering students covering Electric Vehicle integration, HIL validation methodologies, and industry-standard quality practices (ISO 26262, ASPICE), bridging academic learning with real-world automotive engineering.
- Industry Knowledge Sharing: Actively contributes to the Indian automotive EV ecosystem by engaging with professionals, sharing expertise in functional safety, E/E integration, and test automation best practices.

EDUCATION & CERTIFICATIONS

Diploma in Electronics & Telecommunication Engineering – MSBTE Mumbai, 2014

- TÜV SÜD: Certified High Voltage EV Level 2
- ISO 27001 / TISAX: Internal Auditor & Trainer
- Creative Problem-Solving Award (2024)

ADDITIONAL INFORMATION

International Experience: Saudi Arabia & Vietnam (Onsite Assignments)

Languages: English, Hindi, Marathi
